

Transport Motobike & Equipment 2022/2023

1. Norway / Sweden / Germany

Here we will stow everything neatly and secure it. The race bike and your equipment will be unloaded at BioSan Bike Hotel and properly stored in one of our long-term parking areas in our hall.

2. Denmark

Please load this yourself. This means that you will be provided with a transport box for an appointment. We have given the dimensions separately below. The listed equipment should also fit in there. We have often packed it ourselves and know that it fits. This box will be stored closed at our BikeHotel in the hall until you come to Spain and unload your transport box yourself.
